

THE NUT JOB

The Nut Count

Surly Squirrel and Buddy have collected peanuts, pistachios and walnuts. They've organized them into a graph. Help them figure out the answers to the questions below so they can tell their friends at Liberty Park what they've collected.

1. How many of each kind of nut has Surly and Buddy collected?

_____ Peanuts _____ Pistachios _____ Walnuts

2. Which nut did they collect the most? _____

3. Which nut did they collect the least? _____

4. How many nuts did they gather altogether? _____

5. How many more pistachios did they collect than walnuts? _____

6. If Surly and Buddy eat three pistachios, how many would be left? _____

7. What else can you say about the information in the graph?

Write one more fact here. _____
